From the Synthesis for January 28,2018

The synthesis, the weekly readings for each week, readings are broken down into sections of scripture, tradition, culture and postscript. Each section looks at the readings from a different perspective.

Culture

What comes next? The answer is: we never know. No matter how smart we are, how carefully we have planned, or how much data we have gathered, we are still only mortals, who can never control the future. We live in the now, in the eternally changing series of spaces we call the present. The now is where we shine. In the now we can have an impact, be creative, shape reality, build relationships that can withstand change. What happens tomorrow may always be a surprise, but what happens today can still feel our presence. In fact, we are the artists of the now. We can turn a moment into a memory, a glance into a promise, an idea into a vision that will last forever.
